

The Doctrine of the Trinity

Dr. Tony Costa

The doctrine of the Trinity is absolutely essential, a key fundamental belief of the Christian faith and the fountain head of all theology. But misunderstanding and erroneous views have led to serious theological confusion and unbiblical thinking. What is the Trinity? How can God be three in one? Is it a mystery to be taken by faith? Is it borrowed from paganism? Join us as we examine the Trinity and come away with a better, fuller understanding of God and His relationship to us.
